

ROSATOM

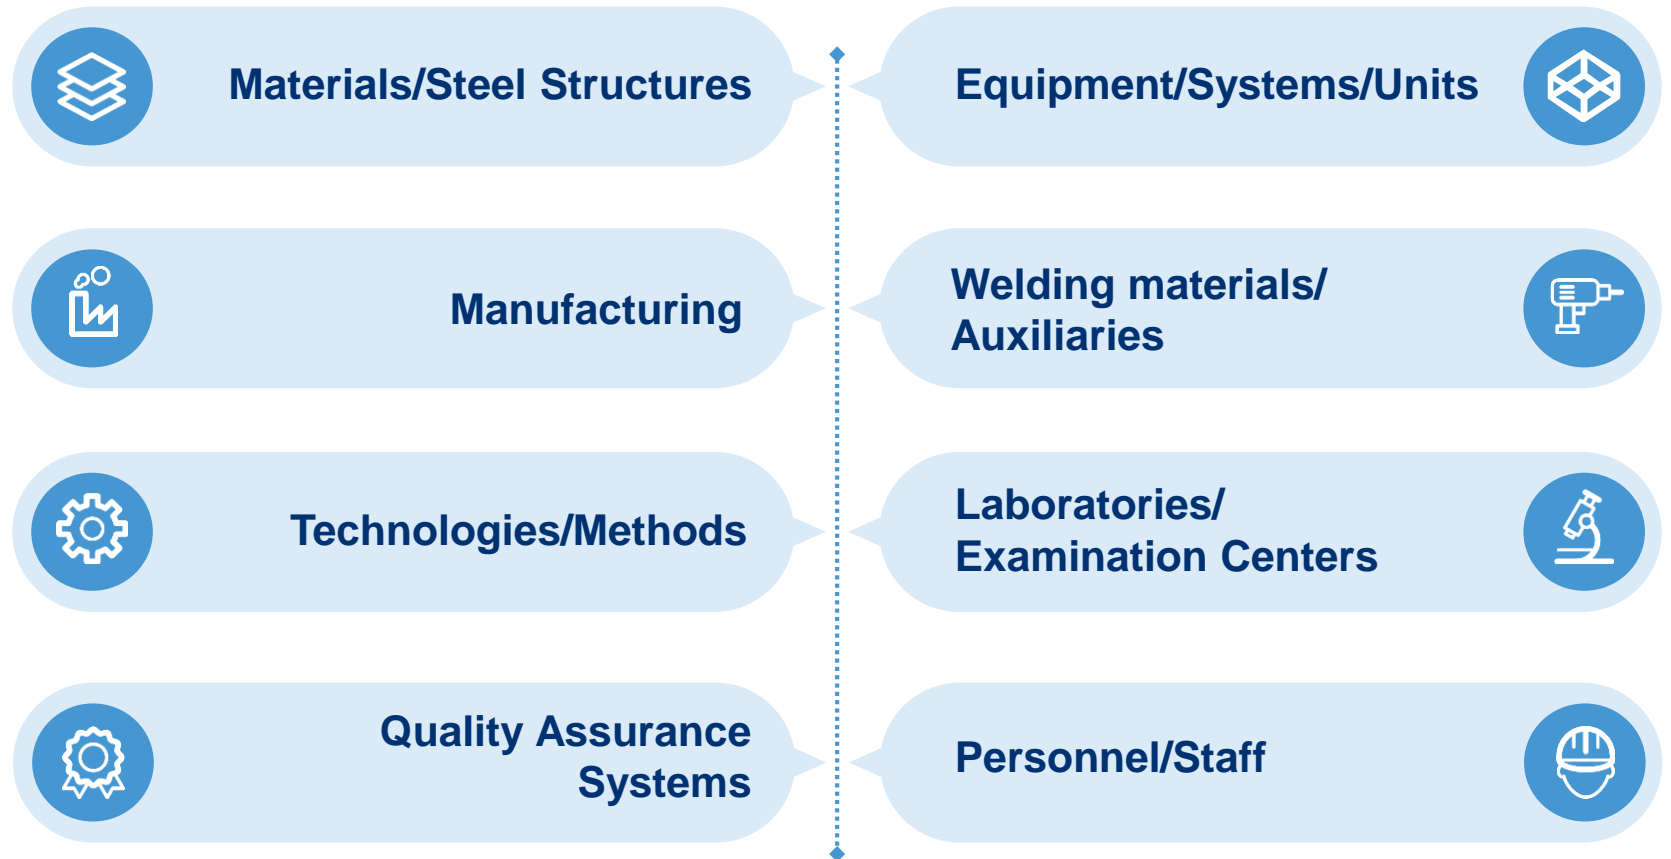

STATE ATOMIC ENERGY CORPORATION ROSATOM

Leading material organization functions in implementation of SC Rosatom projects abroad

Compliance Certification

The Subject of Compliance

As all Design & Calculations for Russian NPP Installations of SC Rosatom are based on Russian Standards, Rules & Regulations, those are spread for any Goods supplied and Services rendered. This requirement is the cornerstone of all tender inquiries and a part of Initial Technical Requirements mentioned there. It refers to:

Compliance Proof

Supply & Services for Foreign NPP of SC Rosatom require the Conclusion Report of Compliance (CRC) issued by LMO (GMO). Admittance to tender procedures is granted only in case of already issued CRC or under obligation of a Supplier/ Provider/Contractor to obtain the said CRC immediately after contract awarding.

Standards, Rules & Regulations

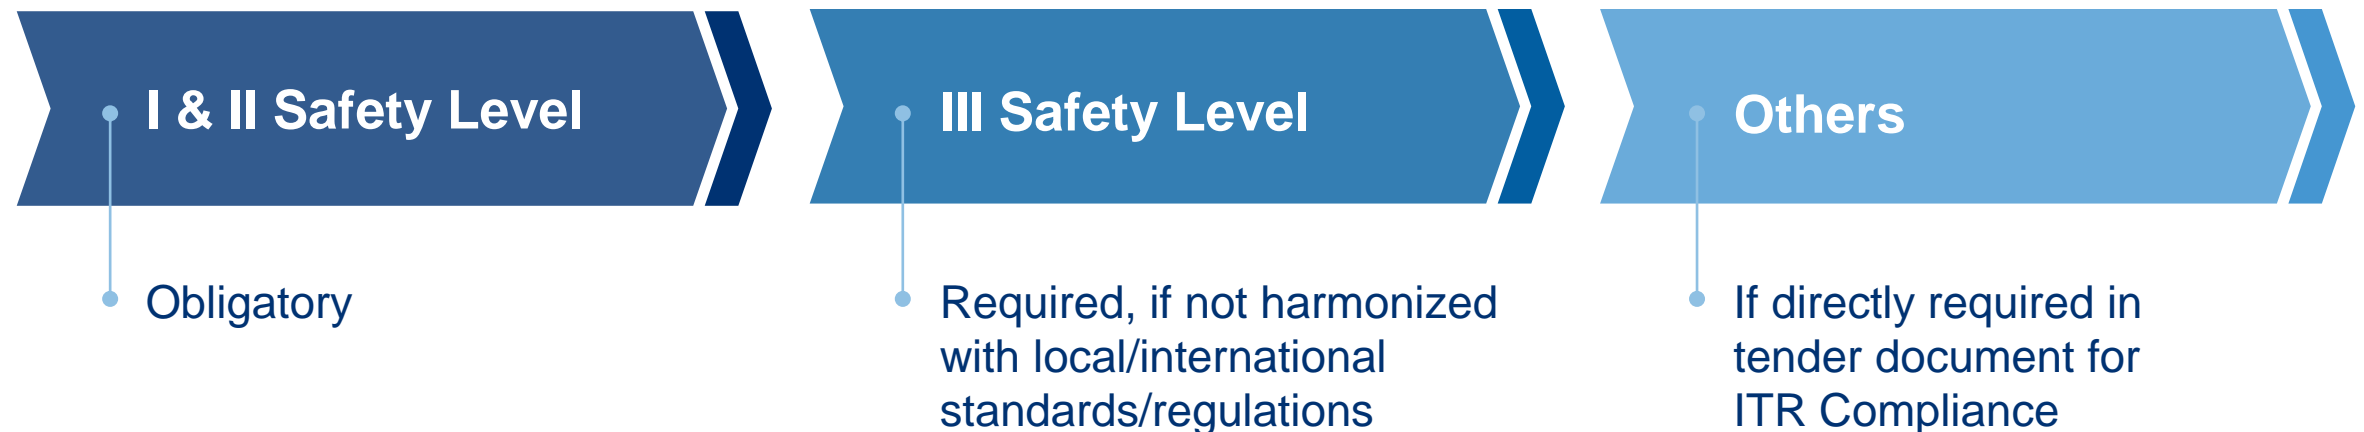

Design Rules

GOST R – General Standards And Safety Rules

Nuclear Safety Regulations PNAE, PNAE G

Area and Objects of Applications

Any Supply & Services provided in the limits of Russian Design and Responsibility of SC Rosatom as well as at the TOP and Integrated Systems considering interfaces, joints, fittings and connections.

Procedure of CRC Issuing

JSC “RPA “CNIITMASH” is appointed by SC Rosatom as the Leading Material Science Organization (LMO/GMO) in the field of development, implementation, approval and supervision of technology, documentation and manufacturing for Supply & Services of Materials, Welded Structures, Pipelines, Welding Materials, Equipment & QAS.

JSC “RPA “CNIITMASH”

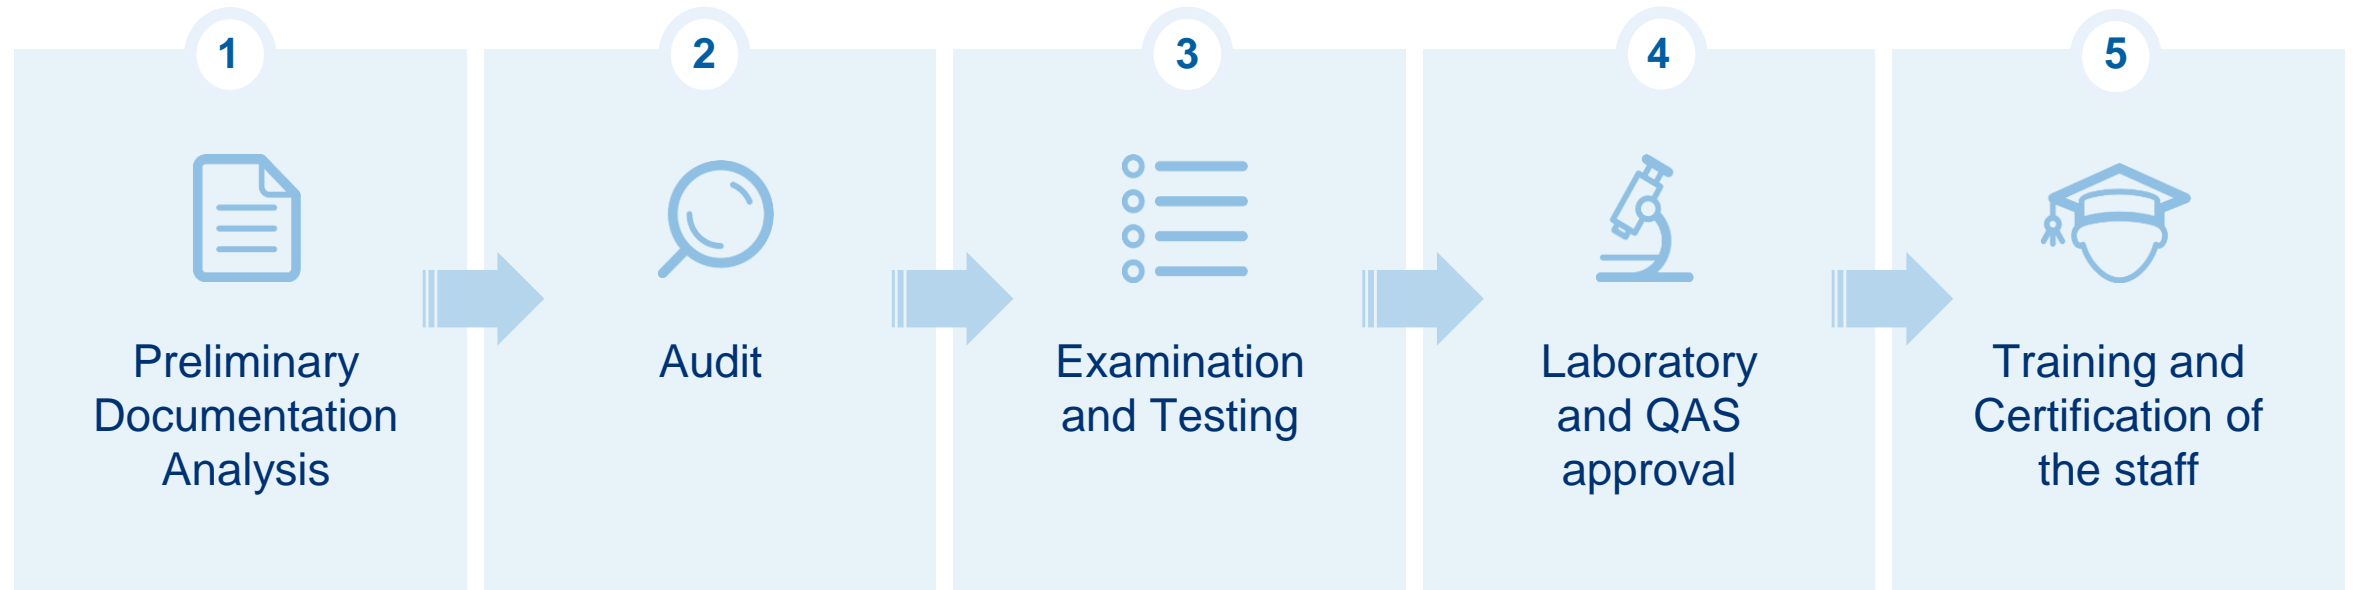

CRC is issued by LMO (GMO), which in the limits of its competence substitutes the Certification Bodies of Russia abroad. CRC is also based on reports of expert organizations and recognized by SC Rosatom and its Vendors.

Local (and foreign) Suppliers shall apply for pre-tender and pre-contract procedures considering the time schedule of corresponding examinations and audit of facilities and documentation. Contractors shall also consider the necessity of staff training and testing.

Procedure of CRC Issuing

Duration of CRC Issuing depends upon the subject and object of compliance and can take from 2 months to 2 years.
